Preface by Editors-in-Chief

Journal of Science and Applicative Technology, Vol. 3 No. 1

August 2019

This is my first editorial preface as the new Editor-in-Chief of the Journal of Science and Applicative Technology (JSAT). The journal has strong reputation for quality in the field of science, technology, and regional development. In Juni 2018, JSAT was indexed by Google Scholar, Neliti, Portal Garuda, One Search, Base, PKP Index, and Crossref.

It is therefore incumbent on me to thank all people who have been contributed in getting the journal to this point. First, I would like to acknowledge the hard work and visionary leadership of my predecessor Editor-in-Chief since 2017. Creating a journal from scratch is no easy feat, especially when its desired destination is to be a journal of high quality. In order to succeed in this endeavour the journal and, by association, its editor need to attract quality papers which are not only read, but also cited. Supporting this, the journal requires the editorial team of dedicated professionals to read, critique, and manage submissions. Second, I would like to specifically thank Managing Editors, Editorial Advisors, Section Editors and Reviewers who fully support JSAT in review and publication process.

We are glad to present to the readers the third volume of our scientific journal for August chapter. In this issue we continue to publish results of interdisciplinary scientific researches in various aspects. We are also glad to have authors who has contributed to the publication of JSAT. Special thanks are for our future readers. We will not be able to exist without you.
